NAME INDEX

Abbott, A., 302, 304, 330
Agar, M. H., 105, 114
Allison, P. D., 247, 248
Anderson, C. J., 271, 273, 315
Anderson, J. A., 224
Andréka, H., 187n
Appleby, M., 269, 296
Athanassiou, N., 295
Atkinson, A. B., 71
Axelrod, R., 207
Axinn, W. G., 103n, 104
Ayer, A., 187n

Babbie, E., 111
Baddeley, A., 317n
Baker, F., 271, 272
Balzer, W., 188n
Barber, J., 103n
Barendregt, H., 207
Barr, N. E., 103n
Barron, D. N., 140
Barwise, J., 146n, 188, 214
Batchelder, W. H., 287
Bearman, P. S., 271, 301n, 303, 320, 327
Beath, K. J., 127
Becker, H. S., 124
Beeghley, L., 221
Bell, W., 34, 35n, 46, 71
Bentler, P. M., 231
Berge, C., 314n
Bernard, H. R., 267n, 272
Besag, J. E., 306, 308, 322, 331, 332
Beth, E. W., 187n
Bista, D. B., 126
Blalock, H. M., 187n, 206
Blumer, H., 124
Bond, K., 2
Borgatti, S., 295
Boster, J. S., 271
Bradburn, N., 29, 125, 128
Brajuha, M., 7, 8
Brazill, T., 287
Breiger, R. L., 271, 301n, 320
Brewka, G., 136n
Browning, B. A., 296
Bruggeman, J., 183, 183n, 187, 195n
Bryant, A. W., 6
Burawoy, M., 105
Burgess, E. W., 104
Burgess, R. G., 104
Burkett, T., 267n, 269, 295

Caldwell, J. C., 125
Cameron, A. C., 248, 249, 251, 253, 254n
Carlson, G. N., 150
Carlson, S. M., 36n, 45, 50, 71
Carmines, E. G., 125, 127
Carnap, 187n
Caroll, J., 2
Carrington, P., 22n

Carroll, G. R., 133n, 138, 139, 140, 156, 156n, 173n, 187, 195
Carroll, J. D., 284
Carter, D. K., 35n
Cartwright, D., 302
Cecil, J., 2, 27n
Chakravorty, S., 99
Chamberlain, G. A., 248
Chang, C., 193
Charles, M., 38, 90
Cliff, A. D., 99
Clogg, C. C., 224
Clutton-Brock, T. H., 296
Cochran, J., 221
Cohen, J. K., 35n
Coleman, J., 35n, 38, 104, 187n, 206
Coleman, J. S., 89
Cook, K., 320
Coombs, L. C., 107
Corander, J., 311, 311n, 331
Corbin, J., 111, 115
Cortese, C. F., 35n
Cottrell, L. S., Jr., 104
Cowgill, D. O., 34
Cowgill, M. S., 34
Crabb, B. B., 7, 22n, 23n
Crouch, B., 273, 277, 311, 311n, 315, 331
Cuzzort, R. P., 71

Dacey, M. F., 71
Dahmström, K., 311, 331
Dahmström, P., 311, 331
Daisley, B., 7, 9
Davis, J. A., 271, 302
Davis, N. J., 221
Dawid, A. P., 318n
De Graaf, N. D., 220
De Groot, A. D., 187n
de Waal, F. B. M., 295
Deag, J. M., 295
Debreu, G., 187n
DeMaio, T. J., 128

SUBJECT INDEX

age dependence
  liability of adolescence theory, 139
  liability of network saturation theory, 140
  liability of newness theory, 138–9
    endowment fragment, 158–60
    formal logic for, 155–66
    reliability/accountability fragment, 156–8
    unification of default and endowment theories, 160–6, 178–9
  liability of obsolescence theory, 140
    formal logic for, 166–72
    obsolescence fragment, 167–9
    unification of default and endowment theories, 169–72
  liability of senescence theory, 140
  nonmonotonic logic, use of, 134–5, 176–7
    in theory building, 140–3
  population-level theory, 172–4
  theories of, 138–40
    formalization of, 155–74
    nonmonotonic logic, building with, 140–3
    population-level theory, 172–4
anomalous cases
  benefits of survey/ethnographic integration, 129–30
  deviant case analysis, 104–6
  ethnographic fieldwork, 114–15
  ethnographic insights, 115
    measurement refinements, 120–5
    methodological refinements, 125–8
  theory revision, 116–20
  Nepal study. *See* Nepal study of religion/childbearing preferences
  sampling of, 111–14
  survey error and its sources, 125–8
approximate conditional estimator, 260–3, 264
automated model generating, 201–4
automated theorem proving, 204–6

categorical weighted covariates, regression models with, 229–31
categorical weighted variable, Sobel's model for, 232–4
causal stories, 141, 143, 145
"checkerboard problem," 77
"clustering" indices, 77
computer-supported logic formalization, 186–8, 206–8
  automated model generating, 201–4
  automated theorem proving, 204–6
  core theory, marking of, 188–9, 195–6
  empirical testing, 194–5
  example sentence, 208–11
  first-order logic, 212–14
  formal testing, 193–4

automated model generating, 201–4
automated theorem proving, 204–6
formalization proper, 192, 200–1
informal axiomatization, 190–2, 198–200
key concepts, analysis of, 189–90, 196–8
MACE program, 201–4
models of first-order logic, 213–14
OTTER program, 204–6
proof systems of first-order logic, 214
semantics of first-order logic, 213
symbols of first-order logic, 212
syntax of first-order logic, 212–13
confidentiality
guaranteeing to research participants, 23–32
research records, 1–4
research-participant privilege. *See* research-participant privilege
"confidentiality certificates," 4
Coombs Scale measures, 107–8, 109
